***Vectron International Obtains  
ETL Listed Mark for ViSmart<sup>®</sup> Viscosity Sensor and Shunt-Diode Barrier***

*Latest safety certification supports the use of the ViSmart<sup>®</sup> Viscosity Measurement System in North American and Canadian hazardous industrial applications such as Flexographic Printing*

**BALTIMORE, MD—APRIL 28, 2014** — [Vectron International](http://www.vectron.com), a leader in the design, manufacture and marketing of piezoelectric technology based products today announced that it has received the ETL Listed Mark for the ViSmart<sup>®</sup> VS-2511 Viscosity Sensor and the VB-2510 Shunt-Diode Barrier. Marketed under Vectron's [SenGenuity](http://www.vectron.com) family of sensors, the VS-2511, VB-2510 and controller interface products will be showcased at INFO\*FLEX being held at the Baltimore Convention Center April 28-29<sup>th</sup>, booth #722. The ViSmart<sup>®</sup> viscosity measurement system is an ideal solution for solvent-based ink measurement and control. The VS-2511, VB-2510, and VisConnect<sup>®</sup> VC-20xx Series Converters can easily be integrated into solvent-based printing presses and ink control systems.

Performance and certification testing of the VS-2511 Viscosity Sensor and the VB-2510 Shunt-Diode Barrier was conducted by Intertek. Intertek is an independent National Recognized Testing Laboratory (NRTL). The ETL Listed Mark shows demonstrated compliance to UL/ANSI/CAN/CSA product safety standards. Authorities Having Jurisdiction (AHJ's) in all 50 states and Canada accept the ETL Listed Mark as proof of product safety.

In addition to the ETL Listed Mark, the VS-2511 and VB-2510 bear the CE marking which indicates product compliance to applicable directives for products sold within the European Economic Area (EEA).

For further information on these or any other SenGenuity brand sensor products please contact a customer service representative at 1.888.328.7661 or visit [www.sengenuity.com](http://www.sengenuity.com).

### **About Vectron International**

Vectron International is a world leader in the design, manufacture and marketing of frequency control, sensor, and hybrid product solutions. Vectron solves complex timing, filtering and sensor challenges by delivering customized solutions that speed time to market and offer low total cost of ownership. Vectron uses the very latest techniques in both bulk acoustic wave (BAW) and surface acoustic wave (SAW) based designs from DC to microwave frequencies. Committed to the industry's highest quality service standard and complete satisfaction, Vectron International leverages its global footprint and 50 years of experience to help customers achieve competitive differentiation and improve their bottom line. Vectron International is headquartered in Hudson, NH and has operating facilities and sales offices in North America, Europe and Asia. For more information, please call 1-88-VECTRON-1 or visit [www.vectron.com](http://www.vectron.com).
